THE REFLECTOR

Dedication

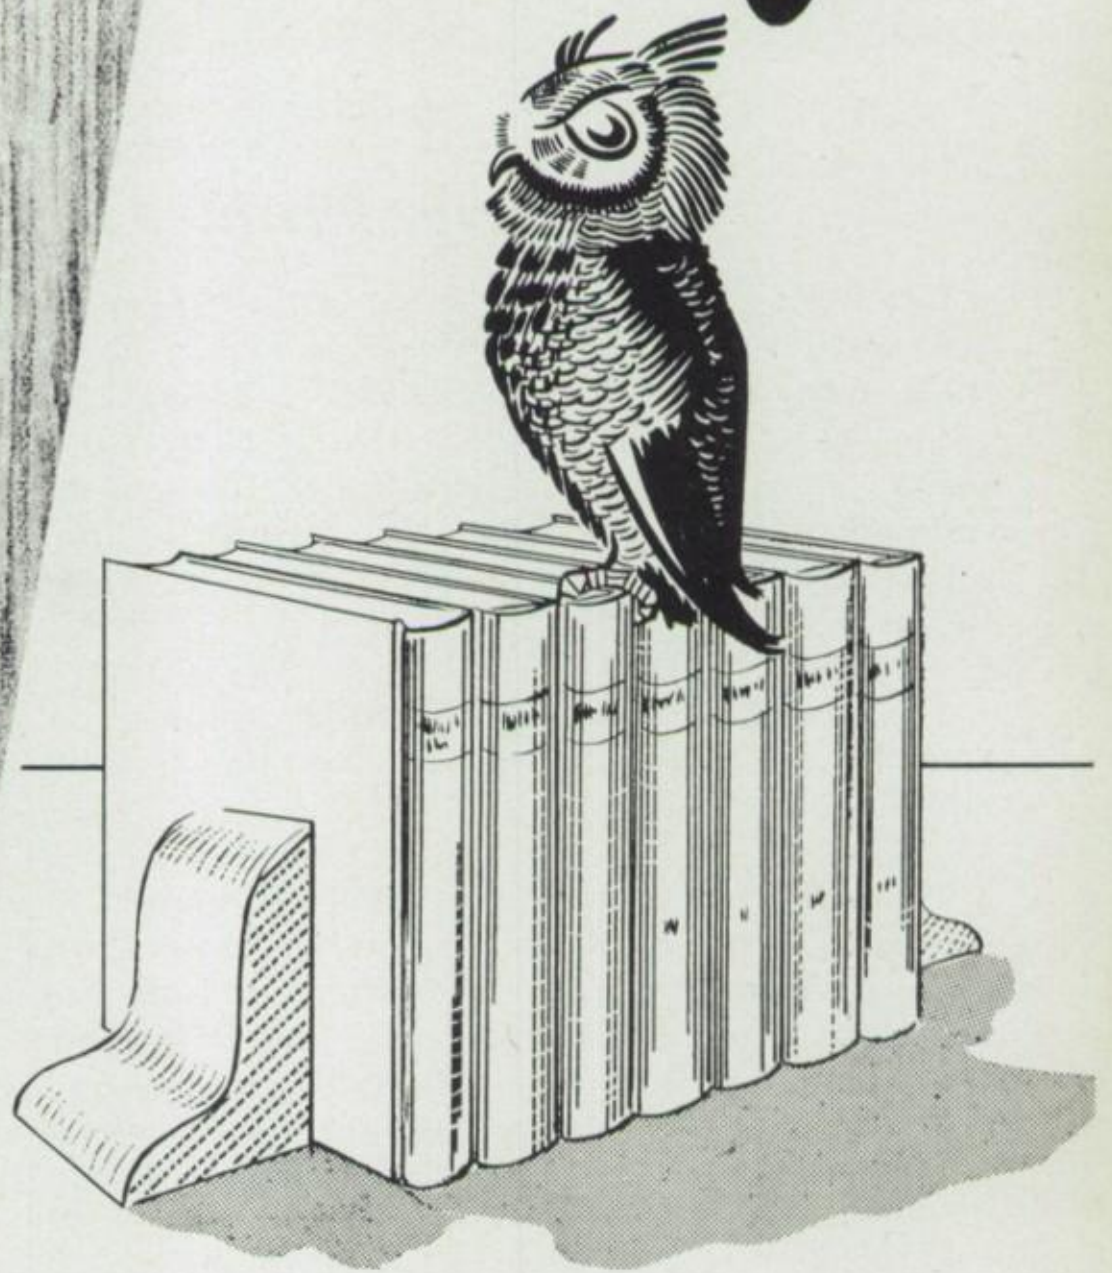

Dedication

The 1955 Reflector is dedicated to Mrs. Bernice Robbins, our teacher, advisor and friend, who has willingly served the school and the studentbody. The Seniors especially wish to express their appreciation, as she has been their class advisor for the past two years.

Words From The Principal

For once, I feel it very difficult to express my thoughts in words. Numerically, you are not the largest graduating class, nor perhaps academically the highest, in the history of Union High School. I do feel, however, that although small in number, you have been a good, steady, hardworking class. I feel that you have, as a class, contributed greatly to the building of school spirit this year through your interest in all class and school activities. For having at heart not only the best interests of your own class, but those of the school as a whole, I am truly grateful to you.

You have been a nice group of boys and girls to work with. I shall miss your friendliness and co-operation, and you as individuals, very much in the years to come.

The shackles (in the form of the rules and regulations of the high school) to which you have been bound nearly four long years will soon be struck off. It will be up to you to chart your own individual courses and to set up your own individual rules and regulations for living. The idea of composing your own code of living may frighten some of you needlessly. In my mind, one rule or regulation--the Golden Rule--is sufficient for a full, satisfying life; if one lives up to it. The idea of doing to others as we would have them do to us is worthy of considerable thought.

May I at this time extend to you my best wishes for good health, happiness, and success in your post graduate lives.

Class Will

We, the class of 1955, being of sound mind, do hereby bequeath to the underclassmen our esteemed wisdom, calmness in our class meetings, and athletic ability. We make this our last will and testimony.

First: Gail Rowell will give her nick-name, "Peanut" to Donna Leach in hopes she will grow out of it fast.

Second: Eugene Doughty leaves his curly hair to Joe Packard, so the girls will notice him more.

Third: Ramona Hunt leaves her left over Air Mail Stationery to any girl who is interested in writing to the boys in the service.

Fourth: Jimmy King leaves his ideas of his inventions to any under classmen who need the experience, and to James Marriner he denotes his job of the movie projector.

Fifth: Eileen Howard leaves her athletic ability to Betty Austin who will be one of the future stars of the team next season.

Sixth: Sterling Boardman will leave his devilish deeds to Eddie Whitney and if he searches long enough, he may become the owner of a 29¢ cigarette lighter.

Seventh: Mildred Upham leaves her cooking ability to any girl who is interested in married life.

Eighth: Wilbur Jacobs leaves his leadership in school activities and his basketball ability to Westford Hannan.

Ninth: Chris Wilson leaves her final testament to the Knight family.

To Marlene she leaves her cheering ability.

To Beth she leaves her Future Homemaker title.

To Connie she leaves her cheering suit and megaphone.

Tenth: John Blake will leave his front row seat to the most quiet member of the Junior class. To Lloyd Tolman he leaves his precious pipe.

The Senior Class as a group leaves to the undergraduates our acting ability. Last of all, we want to wish all the classes good luck in their money raising projects.

Our books will be left for the teachers to pass on to the lower classes. The books may be given with our consent, if the new books are kept in good condition and the old ones well erased.

As gum chewing is the favorite pastime of the students at Union High School, and the pet peeve of all the teachers, try to be real careful; if not, there is always a good supply of gum in the first two rows in the main room.

In witness whereof, the faculty signs:

F. T. A. Club

Many schools in the state are becoming alarmed at the shortage of teachers. One way to overcome the situation in the future, is to interest high school students in the teaching profession.

Future Teachers of America Clubs have been started to create this interest. Union's F.T.A. Club has already received its charter. Rockland High School will come to present us with our charter and install our officers.

Part of the work of the members will be to visit elementary grades to observe actual teaching practices. These students also set a good example in study habits for others to follow.
